

Source code for alexander-vickery.github.io

This repository contains the source code for alexander-vickery.github.io, my [personal portfolio website](#).

To produce and deploy the site I used the following development stack:

Stack

- **Framework/Tooling:** [Vite](#).
- **Language:** [TypeScript](#).
- **Markup:** [HTML5](#).
- **Deployment:** [Vercel](#).
- **Styling:** [Tailwind CSS](#).

Getting Started

If you want to run this project locally on your machine, follow these steps:

Prerequisites

Make sure you have [Node.js](#) installed on your machine.

Installation

1. Clone the repository

```
git clone https://github.com/Alex-Vickery/alexander-vickery.github.io.git
cd alexander-vickery.github.io
```

2. Install dependencies

```
npm install
# or if you use yarn
yarn
```

3. Run the development server

```
npm run dev
```

Open <http://localhost:5173> (or the port shown in your terminal) to view it in the browser.

4. Build for production

```
npm run build
```

Using this Template

If you would like to use this code as a starting point for your own portfolio, you are welcome to do so!

Please follow these steps to make it your own:

1. **Fork** or **Clone** the repo.
2. **Update Content:** Please replace all personal information, project descriptions, and images with your own.
