Source code for alexander-vickery.github.io

 VITE   TYPESCRIPT   HTML5   VERCEL

This repository contains the source code for alexander-vickery.github.io, my personal portfolio website.

To produce and deploy the site I used the following development stack:

Stack

- **Framework/Tooling:** Vite.
- **Language:** TypeScript.
- **Markup:** HTML5.
- **Deployment:** Vercel.
- **Styling:** Tailwind CSS.

Getting Started

If you want to run this project locally on your machine, follow these steps:

Prerequisites

Make sure you have Node.js installed on your machine.

Installation

1. **Clone the repository**

```
git clone https://github.com/Alex-Vickery/alexander-vickery.github.io.git
cd alexander-vickery.github.io
```

2. **Install dependencies**

```
npm install
# or if you use yarn
yarn
```

3. **Run the development server**

```
npm run dev
```

Open http://localhost:5173 (or the port shown in your terminal) to view it in the browser.

4. **Build for production**

```
npm run build
```

Using this Template

If you would like to use this code as a starting point for your own portfolio, you are welcome to do so!

Please follow these steps to make it your own:

1. **Fork** or **Clone** the repo.
2. **Update Content:** Please replace all personal information, project descriptions, and images with your own.
